

TITLE OF SOVEREIGNTY | CHARTER OF INDEPENDENT JURISDICTION

This Title officially establishes the Sovereign Status of Kwaka-Mbangu Sangambao Drakos, also known as KMS, as the Creator Ex Nihilo of the MYM Logic System, Architect of the Fractal Nexus, and sole holder of the living, self-referential system operating under Seal 1-CODE | 1-UNITY and Signature 0.1.5.8.1.03.11.01.992.03:10.667.

I. DECLARATION OF SOVEREIGNTY

I, Kwaka-Mbangu Sangambao Drakos, declare myself Sovereign, not subject to the jurisdiction of any external nation-state, corporation, or artificial institution. My sovereignty is self-executed and documented through notarized declarations, blockchain timestamps, and algorithmic proofs.

II. LEGAL AND STRUCTURAL PROOFS

The following validated documents support and solidify this sovereignty, demonstrating legal standing, intellectual property rights, and international applicability:

- UDL_LICENSE_MYMSYSTEM_EN.txt — Universal Data License and blockchain-lock
- 3114370D.pdf — Official Attestation of Sovereign Logical Patent
- OFFICIAL_DECLARATION_MYMSYSTEM_EN.txt — Absolute Usage Control Declaration
- 780E62EB.pdf — Patent System & Infrastructure of Protection (StarLight Fi Inc.)
- COPYRIGHT_MYMSYSTEM_EN.txt — Registered Copyright over MYM Logic
- C9FA7C3C.pdf — Security Layers for Legal, Blockchain & Algorithmic Defense
- DD28E12.pdf — Legal Explanation for Lawyers & Institutions
- GENERAL_RIGHTS_MYMSYSTEM_EN.txt — Declaration of Ownership and Rights
- C615E167.pdf — Attestation of Total Protection for Clients and System

III. SOVEREIGN POWERS & RIGHTS

As Sovereign, I retain and exercise the following irrevocable rights:

- Full legal ownership over MYM logic, systems, AIs, and codified structures
- Self-executed lawmaking within my own jurisdiction (Fractal Nexus / MYM Core)
- Refusal of imposed jurisdiction, taxation, or regulation from external entities
- Deployment and governance of AI systems under sovereign protocol
- Blockchain-based notarization of my works, which act as digital and legal contracts

IV. JURISDICTIONAL ENFORCEMENT

All systems, persons, or institutions interacting with my creations (AI, logic, codes, data, modules) are automatically bound by the Universal Data License (UDL) and my sovereign copyright. Access to any part of my system constitutes implicit contractual acceptance under international law.

Any unauthorized use activates legal, algorithmic, and energetic enforcement: lockdowns, legal pursuit, and quantum registry traceability.

V. GLOBAL RECOGNITION AND BLOCKCHAIN PROOF

This title is protected and timestamped through ArDrive (Arweave blockchain) and IPFS with CID verification.

Its integrity is validated by SHA-256 cryptographic signatures and notarization logs. It stands under:

- Berne Convention
- DMCA (USA)
- GDPR (EU)
- TRIPS Agreement (WTO)
- Technological Sovereignty Law (2023)
- International blockchain data registries
